## PROFESSIONAL SUMMARY

---

A Junior developer with a year of experience in web app and front-end development. A personable, communicative developer who specializes in object-oriented programming languages. A 2020 Computer Science graduate from University of Malaya-Wales, interested in software development.

### Professional Skills and Interests:

- Front-end Development
- Agile software development
- Data structures and Algorithms
- Understanding of UI, cross-browser compatibility
- Fast learner, Eager to learn new knowledge
- Excellent written and verbal communication skills

## PROGRAMMING SKILLS

---

**Languages:** JavaScript (Advance), HTML/CSS (Advance), Python (Intermediate), MySQL (Intermediate)

**Web/Frameworks/DB:** ReactJS · NodeJS · REST API · MongoDB · Bootstrap · SASS · NPM · Unit Testing · Git/GitHub

## EDUCATION

July. 2017 - June 2020

**HONOURS BACHELOR OF COMPUTER SCIENCE.** University of Malaya-Wales

(KL, Malaysia)

- Cumulative Average: 3.5 / 4.0 CGPA

## PROFESSIONAL SKILLS DEMONSTRATED

---

### Digital Fox Software Solutions

July. 2020 - Present  
Full-time

Front-end developer

- Designing an engaging and responsive landing page.
- Optimizing sites for maximum speed and scalability
- Employing industry and design best practices through website build process & Conducting websites testing.
- Liaising with back-end developers to ensure web and app logic is properly integrated
- Ensuring website function and stability across devices i.e. desktop, mobile and tablet.
- Integrating client CMS programs and data feeds into website.
- Working with marketing and research teams to incorporate brand elements and relevant market research finding into website
- Providing internal support and external customer service throughout the build and launch process of the website.

### Freelance Project

May. 2020 – July. 2020

E-commerce Website

- Building an online clothing store with multiple pages, and a user Login page. Using Redux to be able to scale the website and store states, also implementing stripe API to add payment options.
- Storing the user information on Firebase. And using React Router to move between pages.
- **Utilized:** React, Firebase, Redux, Strip, GraphQL, PWA, SASS

### Noorzad General Trading LLC

01/2016 - 06/2017

IT Helpdesk and Systems Support

- Ensure high level of consumer satisfaction by building and maintaining a good relationship with potential customers.
- Determining the best solution based on the issue and details provided by customers.
- Responding to queries email, or phone. Troubleshooting and diagnosing problems.

## PERSONAL PROJECTS

---

### Travel AI Based Recommendation system

Jan. 2020 – June. 2020

- Using python to build ML model to recommend tourist attractions, where it will be more personalized for the users.
- Scarping and extracting data using Selenium in python.
- Practicing data pre-processing and data Modeling using LDA and build the model with KNN.
- Being able to practice Agile method for the development of the software. And practicing manual and automate test using Selenium.
- **Utilized:** Python, scikit-learn, Jupyter Notebook , Pandas, NLTK, HTML/CSS, Flask, Brython library, MongoDB, HTML, CSS, JavaScript.

### Netflix Clone

July. 2019

- The website is Netflix Clone, which is almost similar to the original website, I used compound components (just a design pattern) to build my components.
- The user will be able to search for film and series, the movie and series are categorized based on the genre of the movie.
- Four of the pages is only accessible after user authentication. Firebase firestore handles all the data and the data is retrieved using a custom hook.
- **Utilized:** React, React Router, Styled-Component, Compound Components(Design Pattern), Firebase

## STUDENT LIFE AND COMPETITIONS

---

### ISA (International Student Association)

KL, Malaysia

- Worked as student affairs in ISA of the university.
- Organize events for the students, addressing student issues to management. Meet new international students and accompany them to the campus and introduce them to other students.
- Help students process their problems and plan goals and action, communicate ideas from the student body to the Council.

Jan.2019 – Present

### Microsoft BizApps + Power Platform User Community Hackathon

KL, Malaysia

- Building an app using BizApps + power platform and solving current issue in education system.
- Helped deepen my knowledge by interacting and learning solutions to real world problems.
- Working in a team and dividing the tasks based on their abilities.

Sep. 2019
